

Skype Bible Classes

Hello,

The Bible Classes that I teach by Skype enable us to see and hear one another. This allows us to exchange questions and thoughts. I teach by Microsoft PowerPoint, and I can animate the Bible on PowerPoint. My class room in my church, First Baptist Church, Ada, Oklahoma, is used for my teaching.

Bible Class

There are two screens in the class room. One screen has the PowerPoint Bible Study, and the other screen has the Skype students. I also have two cameras, one showing the class and the other showing the PowerPoint teaching screen. I switch between the cameras. Before the class starts, I show who is in the classroom so that they can visit with the students on Skype. When I begin teaching, I switch to the camera showing the PowerPoint teaching screen and me.

The Skype program "Group calling or Conference calling" will not work with this type of teaching.

There are two ways to be in a Skype Bible Class.

1. I will set up a new Skype Bible class just for you.

**a. You will decide which Bible Course you want to take.
Check out the different Bible courses you can take for free.**

[Free Bible Courses Click Here.](#)

b. You and I will decide the day and time of the Skype Bible Class.

c. I will have at least one or more persons to be in the class room here at First Baptist Church, Ada, Oklahoma for this Skype Bible Class.

e. You can invite your friends over to be in the class with you using your computer at one location.

f. If you have a TV and can connect your computer to the TV, it will be easier for a larger group to see.

g. If you have a digital projector, then you can project it on a wall or screen.

2. You may attend a Bible class in progress by "live streaming".

a. All of these Bible classes are broadcast live by live streaming. With live streaming you can hear and see the class live.

b. You can watch the Bible class on live streaming and when the class is over, you can ask questions by calling me on Skype: "jerry.wells93"

c. This is the link for live streaming: [Click here for Live Streaming.](#)

You must keep your Skype updated.

You need to have a good Internet connection.

Call your friends and set up a Skype Bible class in your home, Church, or any location where there is an Internet connection.

If you do not have Skype, you may download Skype free. Beware: When you download Skype, be sure you read every word on each window that pops up in

the steps of downloading Skype. Uncheck the checkmarks on the programs you do not want or need. [Click Here to download Free Skype.](#)

If you do not want to use Skype, you may attend the Bible Classes by live streaming. [Click here for Live Streaming.](#)

Check out the different Bible courses you can take for free. [Free Bible Courses Click Here.](#)

You can take these Bible Courses on-line on your own schedule with or without Skype or live streaming.

If you have any suggestions or questions, please let me know.

It is my prayer that we can work out a way for anyone and everyone to attend the Bible classes.

In the twilight of His Coming,

Jerry L. Wells
